

Assigned to:

Name: _____

Skill Book Initiated: _____

Department/District: _____

Identification Number: _____

SKILL VERIFICATION BOOK

FIREFIGHTER I

MODULE II

Third Edition
September 2004

Meeting the requirements of NFPA 1001, 2002 edition

**FIRE PROTECTION
BUREAU**

INSTRUCTIONS: This book will be used to verify training in the prerequisite skills that are necessary for a certification test for Fire Fighter I, Module II.

When the skill is mastered, it will be initialed and dated by the responsible authority for verification; any person who initials a subject must also place his/her name, position, and initial in the verifier portion of the booklet.

This booklet may be used as satisfying prerequisite training when undertaking Fire Fighter I certification.

NOTE: Text in italics is not a mandatory Fire Fighter I Performance Task. It is a suggested means of meeting the desired objective.

Verification/Certification of Completed Task Book for Fire Fighter I, Module II (Basic Fire Fighter Training)

FINAL EVALUATOR' S PREREQUISITE TASKS VERIFICATION

I Verify That All Tasks Have Been Performed By

To Satisfaction at the Fire Fighter I Level

Evaluator's Signature and Date

**Evaluator's Printed Name, Title, Department, and Phone
Number**

AGENCY CERTIFICATION

**I Certify That the Above-Named Individual
Social Security or Identification Number _____**

**Has Met to Satisfaction, All Prerequisite Task Requirements For
Fire Fighter I, Module II (Basic Fire Fighter Training)**

Certifying Department Official's Signature and Date

Certifying Department Official's Printed Name and Title

Official's Department and Phone Number

SKILL REQUIREMENTS

5.3 FIREGROUND OPERATIONS

- 5.3.7 Attack A Passenger Vehicle Fire
- 5.3.8 Extinguish Class A Exterior Fires
- 5.3.10 Attack an Interior Structure Fire (Partial)

KNOWLEDGE REQUIREMENTS

5.3 FIREGROUND OPERATIONS

- 5.3.7 Attack A Passenger Vehicle Fire
- 5.3.8 Extinguish Class A Exterior Fires
- 5.3.10 Attack an Interior Structure Fire (Partial)

VERIFICATION PAGE

SKILL REQUIREMENTS

5.3 FIREGROUND OPERATIONS

5.3.7 Attack a Passenger Vehicle Fire – Has Demonstrated the Ability to:

Date	Initials	Performance Skills
		Identify automobile fuel types - Is able to identify markings used to indicate fuel other than gasoline is being used in a vehicle.
		Assess and control fuel leaks - Is able to assess that fuel is leaking and to demonstrate ways to control the leaking fuel during both a fire and nonfire situations.
		Open, close, and adjust the flow and pattern on nozzles - Is able to demonstrate how to correctly control a nozzle while performing the required nozzle operations.
		Apply water for maximum effectiveness while maintaining flash protection - Is able to demonstrate how to control a nozzle so that firefighter protection is maintained while approaching, controlling, and extinguishing a vehicle fire.
		Advance attack lines (1 ½ - in. or larger) for passenger vehicle fire - Is able to demonstrate advancing an attack line while keeping out of the dangerous zones created during a vehicle fire.
		Expose hidden fires by opening all compartments - Is able to demonstrate how to properly overhaul all compartments (motor, passenger, and trunk) of a vehicle after a fire.

Names, Position, and Signed Initials of Verifiers:
(Print Name and Position. Initial same way as when verifying.)

Name _____

Position _____ Initials _____

Name _____

Position _____ Initials _____

Name _____

Position _____ Initials _____

Name _____

Position _____ Initials _____

Name _____

Position _____ Initials _____

**5.3.8 Extinguish Class A Exterior Fires –
Has Demonstrated Satisfactory Knowledge of:**

Date	Initials	Performance Skills
		Types of attack lines and water streams appropriate for attacking stacked, piled materials and outdoor fires.
		Danger associated with stacked and piled materials.
		Various extinguishing agents and their effect on different material configurations.
		Tools and methods to use in breaking up various types of materials.
		Difficulties related to complete extinguishment of stacked and piled materials.
		Water application methods for exposure protection and extinguishment.
		Dangers such as exposure to toxic or hazardous materials associated with storage building and container fires.
		Obvious signs of origin and cause.
		Techniques for preservation of evidence.

**5.3.10 Attack an Interior Structure Fire (Partial) –
Has Demonstrated Satisfactory Knowledge of:**

Date	Initials	Performance Skills
		The role of a backup team in fire attack situations.
		Control techniques for grade level fires.
		Control techniques for above grade level fires.
		Control techniques for below grade level fires.
		How to expose hidden fires.

**5.3.8 Extinguish Class A Exterior Fires –
Has Demonstrated the Ability To:**

Date	Initials	Performance Skills
		Recognize inherent hazards related to the material's configuration - Is able to recognize problem with collapse of stacked materials or hazards related to the contents of small buildings or dumpsters.
		Operate handlines or master streams - Is able to demonstrate how to operate all handlines and master streams used by the department. If the department does not operate master streams, then the firefighter is able to correctly describe how these are operated.
		Break up material using hand tools and water streams - Is able to demonstrate overhaul of material such as bales, bags, or stacks using hand tools and water streams used by the department.
		Operate hose lines and other water application devices - Is able to demonstrate correctly operating all hose lines and water application devices used by the department.
		Evaluate and modify water application for maximum penetration - Is able to demonstrate obtaining maximum water penetration from all water application devices used by the department.
		Locate and expose hidden fires - Is able to demonstrate locating and exposing hidden fires utilizing all means available to the firefighter and department.
		Assess patterns for origin determination - Is able to determine where a fire originated by the burn patterns present.
		Evaluate for complete extinguishment - Is able to properly overhaul a fire scene.

**5.3.10 Attack an Interior Structure Fire (Partial) –
Has Demonstrated the Ability to:**

Date	Initials	Performance Skills
		Attack fires at grade level - Is able to demonstrate correctly entering a structure and extinguishing a fire at grade level.
		Attack fires at above grade level - Is able to demonstrate correctly entering a structure and extinguishing a fire above grade level.
		Attack fires at below grade level - Is able to demonstrate correctly entering a structure and extinguishing a fire below grade level.
		Locate and suppress interior wall and subfloor fires - Is able to correctly demonstrate locating interior wall and subfloor fires using all methods available to the firefighter and to overhaul while causing the least damage.

KNOWLEDGE REQUIREMENTS

5.3 FIREGROUND OPERATIONS

**5.3.7 Attack a Passenger Vehicle Fire –
Has Demonstrated Satisfactory Knowledge of:**

Date	Initials	Performance Skills
		Principles of fire streams as they relate to fighting automobile fires.
		Precautions to be followed when advancing hose lines toward automobile fires.
		Observable results of properly applied fire streams.
		Identifying alternative fuels and their hazards.
		Dangerous conditions created during an automobile fire.
		Common types of accidents or injuries related to fighting automobile fires.
		How to access locked passenger, trunk, and engine compartments.
		Methods of overhauling an automobile fire.
